Silk CRM: 111

GDUs to Silk: 1380

GDUs to Phy. Mat.: 2760

Positioning For:

MANAGEMENT COMMENTS

- Platform provides Industry leading yield for maturity with strong brittle stalk tolerance.
- Moderate plant stature with strong root.
- Suitable for a wide range of yield environments.
- Above average Northern leaf blight and Goss wilt tolerance.
- Good ear flex, performs best at moderate seeding rates.

REFUGE

Integrated Refuge

- 95% (AVBL, YGCB, HX1, LL, RR2)
- 5% (LL, RR2)

MARKET SEGMENTS

HTF: High Total Fermentables (Dry-Grind Ethanol)

SUITABILITY RATINGS

KEY ENVIRONMENTS

Goss's Prone Fields Suitable

SUITABILITY

High Residue Suitable
Late Harvest Suitable
Corn After Corn Suitable

SOILS

Early Planting/Cold Soils Suitable
Coarse Textured Soils Suitable
Drought Prone Soils Manage Appropriately
Poorly Drained Soils Suitable
High pH Soils Suitable

CHARACTERISTIC SCORES

Drought Tol.	6
Stalk Strength	5
Root Strength	7
Stress Emergence	4
Staygreen	7
Mid-Season Brittle Stalk	7
Plant Ht.	5
Ear Ht.	7
Test Wt.	5
Grain Drydown	5

DISEASE SCORES

Gray Leaf Spot	4
Goss's Wilt	6
Anthr. Stalk Rot	5
Head Smut	5

TRAIT SCORE RATINGS: 9 = Excellent; 1 = Poor; Blank = Insufficient Data.

ESTIMATED SEEDING RATE

Contact your Pioneer sales professional for additional information. Planting rate estimates provided for informational purposes only. Information here is provided for a hybrid family and not individual products. Product performance is variable and depends on many factors, such as soil type, management practices, environmental stress, disease, and pest pressure. Individual results may vary. Planting rate and seeding costs have been increased by 5% to account for early season stand loss.

IMPORTANT: Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to www.pioneer.com or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
