

213-19VT2PRIB

BRAND BLEND

Relative Maturity

113

Trait

Locally recommended by your Channel Agronomist Cathy Soanes for 69001

Key Strengths

Excellent top-end yield potential under most environments with a sound agronomic package

- Best adapted west to east in the 110-115 RM zones
- Flowers later; good husk coverage
- Consider medium to medium-high planting populations; has responded to irrigation and adapts to most rotations. Corn rootworm management required if following corn

LEGEND

National Ratings Key

Field and weather conditions may vary from area to area. The ratings in the charts are to be used as guidelines only. The limitations of warranty and liability on each bag of seed are part of the terms of sale thereof.

Trait Legend: SS = SmartStax® corn, SSRIB = SmartStax® RIB Complete® corn blend, VT2P = VT Double PRO® corn,

DG-VT2P = DroughtGard® Hybrids with VT Double PRO® corn, VT2PRIB = VT Double PRO® RIB Complete® corn blend,

DG-VT2PRIB = DroughtGard® Hybrids with VT Double PRO® RIB Complete® corn blend, RR2 = Roundup Ready® Corn 2,

TRE = Trecepta® corn, TRERIB = Trecepta® RIB Complete® corn blend, CONV = Conventional, WX = Waxy Conventional,

WX-VT2PRIB = Waxy VT Double PRO® RIB Complete® corn blend

Rating System: 1 = Excellent, 9 = Poor, NR = Not Recommended, - = data is insufficient at this time.

Maturity: GDUs estimate is calculated from planting.

Plant Height: S = Short, MS = Medium-Short, M = Medium, MT = Medium-Tall, T = Tall.

Ear Height: L = Low, ML = Medium-Low, M = Medium, MH = Medium-High, H = High.

Ear Flex: F = Flex, SF = Semi Flex, SD = Semi-Determinate, D = Determinate.

Herbicide Sensitivity: A = Acceptable, C = Caution, W = Warning. Environmental conditions may cause herbicide interactions different than indicated for a particular growing season.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
